

GOKULRAMM S

Full Stack Developer | Backend Developer | AI Systems Engineer

Address: Coimbatore, Tamil Nadu 641035, India

gokulramms@gmail.com | +91 63852 20446 | linkedin.com/in/gokulramm-s | gokulramm.vercel.app

Professional Summary

Detail-oriented Full Stack Developer with strong experience in backend development, AI-powered systems, and scalable web applications. Skilled in Python, Java, REST APIs, and database-driven architectures. Proven ability to design real-world solutions involving automation, document intelligence, and system optimization. Recognized at national-level hackathons and technical expos.

Technical Skills

Programming Languages: Python, Java, C

Web Technologies: HTML, CSS, JavaScript, React.js

Backend Development: Flask, REST API Development

Databases: MySQL, SQLAlchemy

AI & Machine Learning: OpenCV, Deep Learning, YOLOv8.

Embedded Systems: Arduino, Raspberry Pi

Core Concepts: Data Structures, Object-Oriented Programming.

Developer Tools: Git, GitHub, Vercel

Soft Skills

Problem Solving

Analytical Thinking

Team Collaboration

Technical Mentorship

Effective Communication

Leadership

Adaptability

Time Management

Experience

Full Stack Development Intern

Nov 2023 – Jan 2024

Lakshmi Life Sciences, Coimbatore

- Developed a real-time website counting system using React and Python to improve operational monitoring.
- Built an AI-based object counting model using YOLOv8 for packaging process optimization.
- Integrated frontend interfaces with backend services and AI models to ensure seamless data flow.
- Reduced manual tracking efforts and improved process accuracy.

Projects

AI-Smart Campus System

- Developed an AI-powered academic platform allowing students to upload documents and receive automated summaries.
- Implemented AI-based question generation and quiz practice modules to enhance concept understanding.
- Designed backend workflows for document processing, session persistence, and secure session sharing using unique access codes.

Tech Stack: Python, Flask, React, AI/NLP **Team Size:** 2 **Role:** Full Stack Developer

E-PASS System

- Designed a QR code-based campus guest entry system with real-time validation.

- Implemented role-based access control and visitor logging to improve campus security.
- Built backend services for QR validation, user role management, and database-driven entry tracking.

Tech Stack: React, Python, MySQL **Team Size:** 2 **Role:** Full Stack Developer

FaceTrack Attendance System

- Built an AI-powered facial recognition system for automated attendance management.
- Enabled real-time face detection, matching, and automatic attendance logging with dynamic report generation.
- Integrated OpenCV-based recognition pipelines with backend attendance services.

Tech Stack: HTML, CSS, Python, OpenCV **Team Size:** 2 **Role:** Team Lead – Backend & AI

Train Guard – Anti-Crash System

- Developed a microcontroller-based collision avoidance system to enhance railway safety.
- Used ultrasonic sensors to detect obstacles and trigger real-time alerts.
- Implemented embedded control logic using Arduino for cost-effective deployment.

Tech Stack: Embedded Systems, Arduino, Ultrasonic Sensors **Team Size:** 3 **Role:** Team Lead – Embedded

AI Chatbot – Smart India Hackathon 2023

- Developed a decision-tree-based AI chatbot to assist citizens with government service information.
- Designed backend logic to process user queries and deliver structured responses.
- Implemented rule-based decision flows for multi-service navigation.

Tech Stack: HTML, CSS, Python, YOLOv5 **Team Size:** 4 **Role:** Backend Developer

Technical Mentorship

- **PYEXPO 2024, PYEXPO 2025:** Mentored junior students on Python automation, API integration, and deployment best practices. Supervised technical booths and guided project showcases.
- **SIH Thiruvizha:** Served as a mentor during internal Smart India Hackathon mock hackathons, assisting teams with system architecture design, idea refinement, and tech stack selection.

International Conference

- **PyCon India 2023:** Participated in PyCon India held in Hyderabad, engaging with industry experts and sessions on advanced Python technologies and best practices.

Education

B.Tech in Artificial Intelligence and Data Science	2022 – 2026
KGiSL Institute of Technology, Coimbatore	
Higher Secondary Certificate (HSC)	2022
Sri Venkateswara Vidhyalaya Higher Secondary School	
Secondary School Leaving Certificate (SSLC)	2020
Sri Venkateswara Vidhyalaya Matriculation School
